SOCKET WRENCH SETS

CHALLENGER

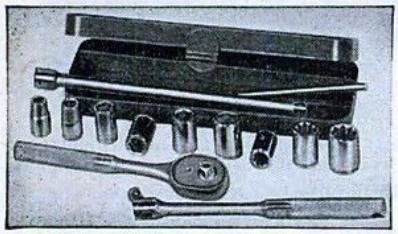
Challenger socket wrench sets have been designed and manufactured to give topmost quality at an economical cost. The steel used in the sockets, handles and attachments is top quality alloy, produced to our own specifications at the mills.

Our hot forging process develops in steel the toughest possible grain texture; giving Challenger tools extra strength, lighter weight, and guaranteed performance.

The bright chrome plating insures a hard sparkling finish that is rust-resistant. Rigid inspection, at each stage of manufacture, assures you of complete satisfaction.

Careful study and research are an integral part of each set make-up. Therefore, whether the work be intricate assembly or heavy industrial, there is a Challenger set for the purpose.

¼ INCH SQUARE DRIVE



14 Piece Set

A complete set of midget tools containing a good selection of all the tools needed for close adjustments in restricted working areas.

Per set

No. 101—Set, contains a 5 in. reversible ratchet, 5½ in. flex handle, 3 in. cross bar, 6 in. extension, six 6-point sockets in sizes ¼, 9/32, 5/16, 11/32, ⅜ and 7/16 in., three 8-point sockets in sizes ¼, 5/16 and ⅜ in., with metal box; wt. per set 1¼ lbs. **$9.85**
